SECTION I INTRODUCTORY SECTION

December 21, 2017

To the Honorable Mayor and Members of the City Council, The Citizens of the City of Richmond Heights, And other interested organizations:

We are pleased to present the City of Richmond Heights, Missouri's (City) Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2017. The report is designed to fairly present the financial position and results of financial operations of the City in all material respects and to demonstrate compliance with applicable finance-related legal and contractual provisions. This report makes every effort towards full disclosure so that the City's financial affairs are understood.

Managements Responsibility

The information presented in the financial statements is the responsibility of the City's management. The report has been prepared by the Finance Department who believes that the financial statements present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City and the respective changes in financial position in conformity with U.S. generally accepted accounting principles.

Reporting Standards and Formats

The Finance Department has prepared this report in accordance with the following standards:

- · U.S. generally accepted accounting principles, which are uniform minimum standards and guidelines for financial accounting and reporting in the United States.
- · Governmental accounting and financial reporting statements, interpretations and technical bulletins issued by the Governmental Accounting Standards Board (GASB).
- · Other financial standards that are issued by state and local statutes

The City implemented GASB Statement No. 34, "Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments." GASB Statement No. 34, labeled by GASB as the "most significant change in the history of government financial reporting," mandates that governments provide additional information about their fiscal health including information about the status of public infrastructure. The City has fulfilled this standard by using existing accounting data, professional resources, and staff time. The MD&A section provides a narrative introduction, overview, and analysis of the basic financial statements. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A follows the independent auditors' report.

THE CITY

The City, located immediately west of the City of St. Louis, is an integral component of St. Louis' inner-ring suburbs. Two major interstates, I-64 and I-170, intersect within the municipal boundaries along with four major County arterial roads. The metropolitan area's light-rail system also runs through the City. Located immediately

north of the City is the City of Clayton, which is the County seat and significant job center. The proximity of the City to Clayton, the City of St. Louis, and major transportation routes has created an economically diverse and vibrant community.

The City was incorporated in 1913 with an initial population of approximately 500 citizens. Additional City annexations occurred over the next 20 years that established the boundaries currently in place. Population increased as the City's boundaries grew with recorded estimates of 2,135 residents in 1920, and rising to the highest point recorded in 1960 of 15,622. Since then the population has steadily diminished due to impacts from highway expansion, commercial expansion, county migration, and changes in family demographics. The 2010 US Census reports the City's population at 8,603.

The City was originally developed as a bedroom community, focusing on the development of local housing. While many of those neighborhoods exist today, significant commercial development occurred along the major interstate routes constructed in the 1950's and 1960's. Specifically, the City is home to the Saint Louis Galleria, a 1.2 million square foot regional shopping mall. This significant development has attracted further commercial development to the immediate area. The City's location makes it an attractive area for commercial development, as well as a location to find very attractive and well-maintained housing stock that has retained its character.

The City is a home-rule charter community. Over time, the City's government structure has changed in response to a growing and active community. Recognizing the need for a professional, good government operation, the City adopted the Council-Manager form of government in 1987. The governing body of the City is the City Council, which formulates policies for the proper administration of the City. The City Council is comprised of a Mayor, elected at-large to a four-year term, and eight council members that are elected to alternating four-year terms. Two council members are elected from each of the four districts. The City Council appoints the City Manager, who serves as the City's chief executive officer and is responsible for carrying out the policies established by City Council.

The City provides a comprehensive range of quality municipal services including zoning, planning, public safety, administration of justice, community development, economic development, recreation, forestry, roadway maintenance/improvement, building inspection, and general administration. The City makes every effort to constantly improve such services and to find new opportunities for service.

FINANCIAL REPORTING ENTITY

The City's services are provided through four (4) governmental divisions - General Government, Public Safety, Parks and Recreation, and Public Works. In each division, functions are divided into departments, each of which is responsible for providing specialized services to the City's citizens. Overall fiscal coordination of these services, as well as all City activities and finances, rests with the Finance Department, which is within the General Government division.

As designated in the financial notes to the comprehensive report, the financial statements include all of the entities for which the City has financial accountability. This includes the Police and Firemen's Pension Trust Fund and the Capital Projects Fund. Also, included in this report is the Memorial Library Fund and the Hadley Township South (Menard's) Community Improvement District (CID). These Funds, which are legally separate funds from the City's fund groups, have been presented discretely as component units of the City. Information for these funds is included because the governing bodies are appointed and removed (with cause) by the City Council. It should be noted that other taxing entities within the geographical boundaries of the City have not been included because they have not met the established criteria for inclusion in this report. A few of these overlapping districts are Maplewood-Richmond Heights, Clayton, Brentwood and Ladue School Districts, Metropolitan St. Louis Sewer District, and Bi-State Metro Transit Authority.

In order to effectively and efficiently operate departments each year, the City prepares and approves an annual budget to meet its financial requirements as required by state statutes and city charter. The City Council approves this budget by Ordinance. The budget is created and adopted on a basis consistent with U.S. generally accepted accounting principles. All annual appropriations that were not lawfully encumbered lapse at fiscal year end.

LOCAL ECONOMY

The City continues to operate under a healthy cash balance within each fund. However, the City pays close attention to the regional economic cycles and continues to be receptive to appropriate economic and community development, which provide additional financial stability.

The City is a major regional retail center due to the Saint Louis Galleria shopping mall. A healthy retail economy since the 1990s has provided strong sales tax receipts. This healthy economy allowed the City to establish reserve balances in the General Fund to three months of total yearly expenditures. This occurred despite the fact that the General Fund was reduced by approximately \$350,000 in 1998 when the City rolled back the property tax rate by \$0.18 per \$100 of assessed valuation. During the 2000's the City further increased its reserve balance beyond six months of total yearly expenditures to further insulate municipal services from the fluctuations of the local and national economy.

The City is committed to maintaining a conservative approach to budgeting. The City has remained a vital, attractive location in which to live, work and shop. The City enjoyed more than \$42.3 million in new construction during this fiscal year.

MAJOR INITIATIVES

Strong fiscal management remains a trademark of the City's government and has enabled the City to provide a high level of services without a direct financial impact to its residents. The following efforts by the City highlight the City's endeavor to maintain quality fiscal activities:

Hadley Township Redevelopment Area: Over the past twenty-five plus years, the Hadley Township neighborhood received considerable interest from speculators and developers. In 2003, the City utilized an outside consultant to examine the Hadley Township neighborhood and assist the City in establishing a vision for the future of the area. These discussions led to an RFP in 2003 that sought in-fill single-family residential housing for the area bound by Hanley Road, Interstate 64, Dale Avenue, Laclede Station Road, and West Bruno Avenue. Based on market responses to the RFP and feedback from neighborhood residents, the City had to further refine its vision for the area into a more defined, comprehensive RFP released in 2005. Multiple developers responded and the City selected Michelson Commercial Realty and Development to redevelop the Area, but Michelson pulled out in 2009. In 2009 the City issued another comprehensive RFP and one party responded, Gateway Real Estate Partners (GRE), later renamed United Plaza, LLC. United Plaza was unable to move forward. The City then owned several parcels of land and continued toward redevelopment within the Hadley Township Redevelopment Area. The accumulation of the City-owned property and nearby land use pressures provided cause for the City to reevaluate. The City modified its vision for the area, reduced the size of the area and sought new development proposals for the modified area in 2012. Menard, Inc. was approved for \$15 million Tax Increment Financing (TIF) in 2013 for a \$63 million project for what is named the Hadley Township South Redevelopment Area bordered by Elinor Avenue, Berkley Avenue, West Bruno Avenue, and Hanley Road. In December 2013 Menard, Inc. purchased all of the properties and began redevelopment. Menard Inc. built and opened a 215,000 square-foot, two-story home improvement store south of Elinor Avenue on Hanley Road within the Hadley Township Redevelopment Area. Included in this project are: purchase and consolidation of 100 properties within the Redevelopment Area, demolition and construction of all new public utilities and roadways, construction of the Menard Store, construction of two multi-retail out lots and construction of a

new City public works complex. The City began collection on the authorized \$15 million in Tax Increment Financing (TIF) and community improvement district (CID) funds to aid in financing this redevelopment project.

- Hanley Road Redevelopment: Within the Hadley Township Redevelopment Area, the City experienced independent, non-TIF assisted redevelopment within Sub-Area B. The vacant properties located at 1500 and 1530 S. Hanley Road were demolished and separately redeveloped using cooperative planning and cross-easement access to enhance egress-ingress for traffic within the new commercial developments and to improve ingress/egress for the residential neighborhood directly behind this block of Hanley Road. The redesigned signalized intersection of Elinor Avenue and Hanley Road greatly improved traffic to more safely access the county arterial. The QuickTrip fuel & store and adjacent 14,000 square foot retail center opened in 2014. The City is collecting incremental revenues from this area to reimburse the City for City costs associated with land acquisition within the Hadley Township Redevelopment Sub-Area B. Once the City recoups its costs, this redevelopment area will likely be retired.
- Francis Place Redevelopment Area: The Francis Place Redevelopment Project Area one, also known as The Boulevard-St. Louis opened in the 2005 fiscal year. This project solidified Brentwood Boulevard as a major regional retail destination. Tax Increment and Transportation Sales Tax Refunding and Improvement Revenue Bonds (Series 2005) for \$19 million were issued to support this development. In 2016, the City amended Francis Place Redevelopment Area to remove Phases II and III, and approved The Boulevard South Redevelopment Plan, which restarts the TIF Clock on what was previously Phase II. The developer/owner, Pace Properties sold The Boulevard-St. Louis in December 2016 to a joint venture, CE Realty, LLC. CE Realty plans to move forward with The Boulevard South Redevelopment and begin construction in 2018. The developer will build at least 200,000 square feet of residential and commercial space with 860-spaces parking garage and realignment of Antler Drive. A TDD and/or CID will be established. The City authorized up to \$18,681,000 in tax increment financing and \$4,371,000 in TDD/CID.
- EVO, previously Manhassett Village: Manhassett Village, a 353-unit apartment complex originally built in the 1930s, began a complete redevelopment in 2005. In April 2005 the City issued \$2.76 million in Bond Anticipation Notes for the Manhassett Village Neighborhood Improvement District (NID) Project. This note was retired in October 2006 with proceeds from the sale of a Bond issue that will be paid off by the owner. In 2012, the City refinanced the 2006 Bond due to the favorable loan rate market, saving over \$225,000. In 2014 the City approved the full conceptual site plan and final plan approval for Phase I, 281 luxury apartments which began construction in 2015. The City also approved 70% tax abatement, maximum cap of \$4 million total, for the entire site. Phase II includes 40 luxury villa homes, Phase III envisions 240 luxury apartments and Phase IV another 240 luxury apartments; all of which will be built as the market absorbs the new construction. Phases I and II were completed in 2017.
- Stonecrest at Clayton View: Town and Country Apartments were purchased and demolished by the Missouri Department of Transportation in 2006 to make way for the newly designed Interstate 170/Interstate 64 interchange. In 2016, MoDOT sold the remaining land to W.B. Properties Olive LLC; placing the property back on the tax rolls. The 80-unit assisted living facility, called Stonecrest at Clayton View, was completed and opened for occupancy in 2017. There is no public assistance related to this project.
- 1107 East Linden: Brith Shalom Kneseth Israel Synagogue merged with another congregation and moved to the University City location. The new congregation, Kol Rinah, sold the property to Pulte Homes of St. Louis, LLC. The site is currently under construction of 42 for sale townhomes. There is no public assistance related to this project.

- Allegro Senior Living: This year, Allegro began construction of an 85+ living facility at 1055 Bellevue, just across the street from SSM St. Mary's Hospital and Medical Office buildings. It will be completed in 2018. This property had been a vacant multi-family housing complex in a very active, mixed residential/commercial area of the Richmond Heights community. This redevelopment is a wonderful transitional land use between the single-family neighborhood to the east and the medical facilities to the northwest.
- Brentwood/Clayton Road: Another area that was recognized for redevelopment years ago, was the southeast corner of Brentwood Boulevard and Clayton Road. In 2002-2003, the City issued a RFP to obtain a high-quality mixed-use development for this area and approved redevelopment with Mullenix-Richmond Heights Redevelopment Corporation to build a hotel. That project, named The Fountains, has now evolved to include two hotels in the development. At the encouragement of the City, Mullenix worked with the adjacent property owners to expand the project into a larger partnership redevelopment which includes a standalone four to six-story shared parking garage. The Hilton Homewood Suites opened in June 2009. Plans for the second, select-service luxury hotel are in final development and should begin in 2018.
- The Crossing at Richmond Heights The City sold 4.5 acres of vacant property located at the intersection of Hanley Rd., Dale Ave., just south of Interstate 64 in 2016 to St. Louis developer, Summit Development Group. Summit also purchased approx. 1.5 acres from MoDOT adjacent to the City's property in order to redevelop a combined 6 acre site that had previously been tax-exempt, government-owned vacant ground. Construction has begun on a new commercial development featuring a Courtyard by Marriott hotel, approximately 25,000 square feet of retail, and two 7,000 square feet dine-in restaurants scheduled to open in the spring and summer if 2018. The City approved the creation of a Community Improvement District to assist in financing up to \$5.5 million in public infrastructure improvements and a \$1.5 million municipal sales tax rebate to assist in financing underground utility relocations and Dale Avenue Streetscape enhancements.
- The Residences at Boland Place —P&M Holdings, LLC acquired four tax-exempt, nonprofit-owned parcels of land at the northwest corner of Boland Ave. and Dale Ave. Demolition of the vacant A.B. Green School and church properties was completed in 2017. Construction of a185-unit luxury apartment complex with 3,000 square feet of retail on the first floor facing Dale Avenue will begin in early 2018. In 2017, the City authorized tax abatement for this project if taxes due surpass \$297,396. If so, the property will be abated and the owner will pay a PILOT of \$297,396 for the first 10 years. After the first 10 years, the abatement will end and the owner will pay full taxes due.
- Employees: The City's most valuable resource is its employees. It is important that employees are recognized as such, including provision of fair and appropriate compensation and benefits. Our conservative approach to a fluctuating economy has allowed us to remain comprehensive and competitive in the compensation and benefits offered to employees. In 2016-2017, the City completed a comprehensive analysis of compensation and benefits. Due to the outcomes of this analysis, the City adjusted its pay scale slightly beginning in July of 2017 to remain highly competitive with the regional employment market.
- <u>Cooperative Efforts</u>: The City began cooperative efforts with other area municipalities in 2002, resulting in numerous initiatives. In 2003 the City of Maplewood and the City consolidated pool operations. THE HEIGHTS staff operates both the City's Natatorium and the outdoor Maplewood Family Aquatic Center (MFAC). This allows for savings by purchasing supplies in bulk and a reduction in staffing needs. Profits from the MFAC are shared with the City of Maplewood. In 2005/2006, the cities of Clayton, Maplewood and Richmond Heights continued to establish opportunities to cooperate on providing services or purchasing equipment/services. The cities of Clayton, Maplewood, Shrewsbury, Webster Groves,

Olivette, and the City consolidated dispatch services. In 2014 the cities of Brentwood and Rock Hill joined our consolidated dispatch organization, known as East-Central Dispatch Center (ECDC). This unique effort provides cost savings for all eight cities, and vastly improved emergency dispatching technology and efficiency. In 2013 the City's fire department and 14 other central St. Louis County departments worked hard to combine Standard Operating Procedures/Guidelines (SOGs) for highly effective mutual aid and constituent service. In 2017, the City also began exploring cooperative fire command services with the neighboring cities of Brentwood, Clayton, Maplewood, and Rock Hill.

FINANCIAL CONDITION

The City's financial position continues to be sound as demonstrated by the financial statements and schedules included in this report. Within the context of a fiscally prudent budget, the City has continued to provide quality services and has achieved many of its program goals. The City's cash and investment position were at appropriate levels throughout the year.

Maintaining existing programs and services, competitive salaries/benefits for high-quality well-skilled public employees, and addressing expanded public service program requests of citizenry will continue to challenge the City. While the City's infrastructure is in proper condition, there is a constant need to allocate funds to maintain and update aging infrastructure. The City's administration continues to look for new revenue sources and ways of reducing overall expenditures through efficiencies, new technologies and partnerships.

Recognizing the need to protect the City's long-term financial position, development efforts have focused on obtaining quality, upscale land redevelopment such as the Saint Louis Galleria, The Boulevard Saint Louis, and the Hadley Township Redevelopment. Public economic tools are sometimes utilized in particular projects when prudent and for the well-being of the public.

Sales tax revenues continue to be the greatest source of revenue for the City. Approximately 49% of all revenues received were in the form of sales tax. Since sales tax is a volatile revenue source due to fluctuations in the economy, the City must rely on the City Council's efforts to adopt appropriate annual budgets. The City is dedicated to maintaining strong reserve balances for each Fund in order to protect the City against economic fluctuations. These healthy reserves allow the City to ensure existing service levels to its residents.

The following financial policies provide the necessary guidance to maintain a strong financial position:

Internal Controls

The City Manager is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the City are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with U.S. generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

Operating Budgets

The guiding principle of budgetary policy is to achieve a structural balance between revenues and expenditures to ensure that the desired service levels be provided on a sustained basis.

The City will fund current operating expenditures with current operating revenues plus any unencumbered or undesignated balance from the previous fiscal year or less any deficit estimated for the beginning of the fiscal

year, as is allowed by the City's Charter. A balanced budget will be adopted for each Fund. Excess operating revenues beyond the amount required for a reserve balance will be set aside for one-time capital improvement expenditures or other specific projects.

Fund Balances

At a minimum, the fund balances for the General Fund, Capital Improvement Fund, and Parks & Stormwater Fund shall not be less than 90 working days or 25% of projected annual expenditures within each Fund. It shall be the overall goal for each Fund to achieve a fund balance equal to 120 working days or 33% of projected annual expenditures. This policy has ensured the City's financial health during regional economic downturns.

Capital Budget

A five-year Equipment Reserves Plan will be updated annually and adopted as part of the budget process. The City will fund the Plan annually through appropriate funding allocation based on the expected replacement cost and equipment life expectancy. Purchasing of items may be delayed based on conditions and projected revenue estimates in the Capital Improvement Fund. Large capital purchases, such as road repair or construction of new buildings, shall be funded in conjunction with the regular Capital Improvement Fund operating budget.

In an effort to reduce the cost of capital expenditures, Federal, State and other intergovernmental and private funding sources shall be applied for and used as available. A concerted effort in applying for matching grants is strongly encouraged.

Debt Service

The City will limit long-term debt to only those capital improvements that cannot be financed from current revenues. The City has made efforts to improve its bond rating and in 2012 the rating increased from AA- to AA+ (Standard & Poors). This rating has remained stable.

Insurance Management

The City, a charter-member of the St. Louis Area Insurance Trust (SLAIT), consists of 24 cities whose goal is to reduce insurance claim costs. Through implementation of policies established by the Board of Directors, the loss experience of these participating cities has been excellent. The City continues to actively participate in the development of guidelines and policies within this Trust.

In July 2009 the City and 11 other cities joined together to form the SLAIT Health Insurance program. Today, this self-funded healthcare pool provides full medical coverage for 17 cities, over 2,000 combined employees and continues to grow as more SLAIT cities look to join.

Debt Management

At year-end the City had six debt issues outstanding. These issues include the Tax Increment and Transportation Sales Tax Refunding and Improvement Revenue Bonds Series 2005 for the Francis Place Redevelopment Project Area (RPA) One totaled \$9,780,000. The Manhassett Village Neighborhood Improvement District (NID) Project Bonds – Series 2012 totaled \$2,020,000. Certificate of Participation (COP) – Series 2009 totaled \$250,000. The COP Series 2009 debt paid off August 2018. In June 2010 the City issued Special Obligation Bonds and Build America Bonds; at year-end the Special Obligation Bonds Series 2010A totaled \$345,000 and the Build America Bonds Series 2010B totaled \$2,770,000. In April 2012 the City entered into an equipment lease. The proceeds were used to fund energy efficient HVAC and lighting upgrades in the City Hall, The Heights, and Public Safety buildings. This lease totaled \$1,566,950 at year-end.

OTHER INFORMATION

Independent Audit

The City Charter requires that an independent audit of all books of City accounts be conducted at least annually. Such audits are to be made by a certified public accountant or firm. This requirement has been complied with and the auditor's opinion has been included with this report.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its CAFR for the fiscal year ended June 30, 2016. This is the 27th consecutive year the City received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized CAFR. This report must satisfy both U.S. generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

The challenges of maintaining a strong fund balance with the City's various goals, projects and outside influences must be met by a sound financial picture. The City's Council and Management will continue to maintain current services and explore ways to improve or expand those services without a significant expense to City residents. Furthermore, funds will be coordinated in a manner that will reduce debt, expand investments, and efficiently provide municipal services.

We wish to acknowledge the contribution of the Finance Department staff: Assistant Director Molly LaMear and Accounting Clerks Tamara Skonseng and Gina Lister. Through their efforts, the City has been able to properly respond to economic cycles, monitor new revenue sources, track costs relating to the City's operations and capital projects, address issues regarding large certificates of obligations, and perform daily functions in regard to the City's finances. Thank you for your efforts and dedication to professional fiscal management.

We would also like to thank our auditors Hochschild, Bloom & Company LLP for their help in preparing this report.

Respectfully submitted,

Amy C. Hamilton, ICMA-CM

INDEPENDENT AUDITOR'S REPORT

December 21, 2017

Honorable Mayor and Members of City Council CITY OF RICHMOND HEIGHTS, MISSOURI

REPORT ON THE FINANCIAL STATEMENTS

We have audited the accompanying financial statements of the governmental activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the CITY **OF RICHMOND HEIGHTS, MISSOURI** (the City), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City as of June 30, 2017, and the respective changes in financial position and thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplemental Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplemental information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The other supplemental information and introductory and statistical sections, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The other supplemental information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information.

D

mation directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplemental information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

OTHER REPORTING REQUIRED BY GOVERNMENT AUDITING STANDARDS

In accordance with *Government Auditing Standards*, we have also issued our report dated December 21, 2017 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Hochschild, Bloom + Company LLP CERTIFIED PUBLIC ACCOUNTANTS

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2017

This section of the City of Richmond Heights, Missouri's (the City) annual financial report presents our discussion and analysis of the City's financial performance during the fiscal year ended June 30, 2017. Please read it in conjunction with the City's financial statements, which follows this section.

FINANCIAL HIGHLIGHTS

- On a government-wide basis the assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources, for the most recent fiscal year, by \$50,804,762. The City has unrestricted net position totaling \$9,016,784 which may be used to fund the City's obligations to citizens and creditors.
- The City's total net position increased by \$3,495,020.
- At the end of the current fiscal year the City's governmental funds reported a combined ending fund balance of \$19,027,866, an increase of \$2,874,265 in comparison with the prior year. Approximately 41% of this amount, \$7,884,591, is available for spending at the City's discretion.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$7,884,591. This is 68% of total General Fund expenditures and transfers out. This is an increase of \$1,403,550 in comparison with the prior year unassigned fund balance.
- The City's total debt decreased by \$4,916,967.

OVERVIEW OF THE FINANCIAL STATEMENTS

This Management's Discussion and Analysis (MD&A) section is intended to provide an introduction to the City's financial statements. The City's basic annual report consists of three parts: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains supplemental information in addition to the basic financial statements.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business. Note the government-wide financial statements exclude fiduciary fund activities.

The statement of net position presents information on all the City's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, including long-term debt and capital assets in the governmental funds. The difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources is reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as transactions occur, regardless of when the related cash flows are reported. Therefore, some revenues and expenses included in this statement may reflect cash flows that actually occur in future periods.

The government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues from other functions that are intended to recover all or a significant portion of their costs through user fees and charges. The governmental activities of the City include general government, parks and recreation, judicial, planning, public works, public safety, and community development. The City does not have any business-type activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2017

The City of Richmond Heights Memorial Library and Menard's CID are legally separate from the City. These are component units of the City, because the City is accountable for them financially. The component units' financial statements are included separately in this report.

The government-wide financial statements can be found on pages 15 and 16 of this report.

Fund Financial Statements

A Fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on near-term inflows and outflows of expendable resources, as well as on balances of expendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financial decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and the government-wide governmental activities.

The City maintains several individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund, Fire and Emergency Services Fund, PARCs and Storm Water Fund, Debt Service Fund, and Capital Projects Fund, all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation called "other governmental funds". Individual fund data for each of these non-major governmental funds is provided in the form of combining statements in the other supplemental information section in this report. The governmental funds financial statements can be found on pages 17 through 21 of this report.

The City adopts an annual appropriated budget for all funds. Budgetary comparison statements have been provided for these funds to demonstrate compliance with these budgets. The budgetary comparison statements can be found in the supplemental sections of this report on pages 53 through 73.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the City. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The statement of fiduciary net position and changes in net position can be found on pages 22 and 23 of this report.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2017

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 24 through 52 of this report.

Required Supplemental Information

In addition to the basic financial statements and accompanying notes, certain required supplemental information can be found on pages 53 through 63 of this report.

Other Supplemental Information

The combining and individual fund statements, referred to earlier in connection with non-major governmental funds, are presented immediately following the required supplemental information. Combining and individual fund statements can be found on pages 64 through 75 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS - FINANCIAL ANALYSIS OF THE CITY AS A WHOLE

As noted earlier, net position may serve, over time, to be a useful indicator of a government's financial position. The City's combined net position, as restated due to pension plan reporting requirements, is \$50,804,762 at year end.

A major portion of the City's net position is its investment in capital assets (land, buildings, machinery, equipment, and infrastructure) less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens, consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources used to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The City's restricted net position of \$13,180,969 represents resources that are subject to external restrictions on how they may be used. External restriction include those imposed by grantors, contributors, regulations or other governments, or restrictions imposed by laws through constitutional provision or legislation. The restricted net position had an increase of 10.69%, or \$1,273,175 over the prior year.

The unrestricted net position of \$9,016,784 may be used to meet on-going obligations to citizens and creditors.

The City's condensed statement of net position as compared to the prior year follows on the next page.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2017

CITY OF RICHMOND HEIGHTS, MISSOURI Net Position Comparison

| | June | 30 | 2017 Cha | ange |
|----------------------------------|--------------|------------|-------------|----------|
| | 2017 | 2016 | Amount | Percent |
| ASSETS | | | | |
| Current and Other Assets | \$34,501,705 | 29,055,893 | 5,445,812 | 18.74% |
| Capital Assets, net | 33,583,841 | 37,210,738 | (3,626,897) | (9.75) |
| Total Assets | 68,085,546 | 66,266,631 | 1,818,915 | 2.74 |
| DEFERRED OUTFLOWS OF | | | | |
| RESOURCES - PENSION | 6,668,718 | 6,381,790 | 286,928 | 4.50 |
| LIABILITIES | | | | |
| Long-term Liabilities | 17,966,230 | 22,911,574 | (4,945,344) | (21.58) |
| Current Liabilities | 2,282,936 | 1,164,182 | 1,118,754 | 96.10 |
| Total Liabilities | 20,249,166 | 24,075,756 | (3,826,590) | 15.89 |
| DEFERRED INFLOWS OF | | | | |
| RESOURCES - PENSION | 3,700,336 | 1,262,923 | (2,150,485) | (170.28) |
| NET POSITION | | | | |
| Net Investment in Capital Assets | 28,607,009 | 28,191,395 | 415,614 | 1.47 |
| Restricted | 13,180,969 | 11,907,794 | 1,273,175 | 10.69 |
| Unrestricted | 9,016,784 | 7,210,553 | 1,806,231 | 25.05 |
| Total Net Position | \$50,804,762 | 47,309,742 | 3,495,020 | 7.39% |

Some significant changes in fund net position are:

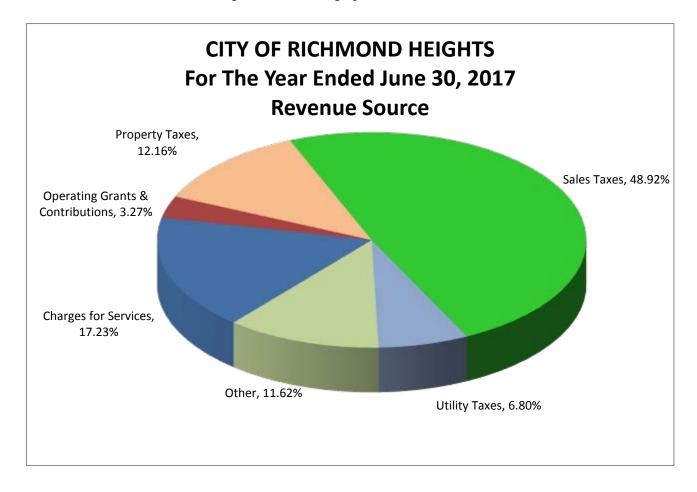

- The net change in current and other assets increased \$5,445,812. The City received \$5,668,327 from the sale of property. This was primarily from the sale of 4.5 acres of City owned land at the corner of Hanley Road and Dale Avenue. The land was sold to Summit Development Group. The developer began construction of a hotel, restaurant, and retail space in Spring 2017. In addition, a decrease in the net pension asset was offset by an increase in the deferred outflows related to pension obligations.
- The net change in capital assets decreased by \$3,626,897. The sale of the land at Hanley Road and Dale Avenue represents \$3,231,833 of the decrease.
- There is an overall decrease of \$4,945,344 in long-term liabilities. This represents total debt payments of \$4,916,967 on the City's bonds, leases, and certificates of participation. These are itemized on page 13. Also included is increased Pension and Other Post Employment Benefit Obligations of \$39,836.
- The net change in current liabilities increased \$1,118,754. This includes \$804,855 payment to Menard's Home Improvement Center for repayment of redevelopment project costs, and \$686,101 due to vendors, payroll taxes, and development project preliminary funding advances.

Change in Net Position. The City's revenues totaled \$24,583,336 (see condensed statement of activities on page 10).

Approximately 68% of the City's revenue comes from taxes, with approximately 48.9¢ of every dollar coming from sales tax, approximately 12.2¢ coming from property tax, and approximately 6.8¢ coming from utility tax. Charges for services

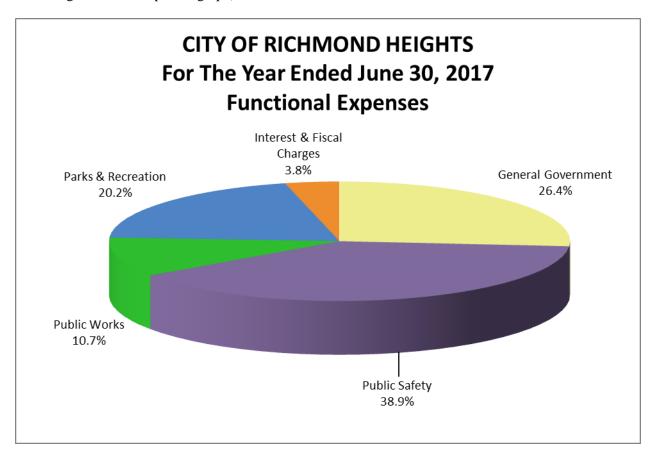

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2017

represent 17.2% of the City's revenue or 17.2¢ of every dollar. Another 3.3¢ of every dollar comes from grants and contributions. The remaining 11.6¢ comes from interest and investment earnings, gain on sale of capital assets, and other miscellaneous revenues (see the following revenue source graph).

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2017

The City's expenses cover a range of services, such as police, fire, parks and recreation, administration, and public works (see the following functional expenses graph).

Governmental Activities. The statement of activities and the narrative that follows consider the operations of the governmental activities.

Total revenues for the City increased by \$2,314,194 (10.39%), total expenses increased by \$1,137,375 (5.76%). Resulting in an increased in the change in net position of \$1,176,819 (50.76%).

- Revenue increases during the year were from: Sales tax \$905,545, property tax \$212,722, and gain on sale of capital assets \$2,322,261. There was a decrease in capital grants and contributions from infrastructure improvements of \$995,040 and charges for services of \$78,879.
- Another significant change was increased expenses in general government \$949,541, in public safety \$40,369, and in parks and recreation \$427,333. These significant changes in expenses were for salaries, benefits, pension amounts, and changes in capitalized assets. There were decreases in public works \$28,439, and interest and fiscal charges \$251,429. These changes in expenses were from reduced infrastructure improvements and reduced interest due on the COPs Series 2005 debt retired August 2017.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2017

The City's condensed statement of activities is as follows:

CITY OF RICHMOND HEIGHTS, MISSOURI Statement of Activities

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

As noted previously, the City uses fund accounting to ensure and demonstrate compliance with finance related legal requirements.

Governmental Funds

The focus of the City's governmental funds is to provide information on inflows, outflows, and balances of available resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the City's net resources available for spending at the end of the fiscal year.

D 1

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2017

General Fund. The General Fund is the main operating fund of the City. The City's General Fund minimum reserve policy is 25% of expenditures and transfers. The City's Fire and Emergency Services Fund does not generate sufficient revenues to cover their annual expenditures; therefore, requiring a transfer from the General Fund to balance the accounts. As a result of this mandatory transfer, the Fire and Emergency Services Fund is included with the General Fund when calculating the 25% minimum reserve. The current reserve balance is at 60.89%. This balance is greater than the policy requires as management feels that it is prudent to have sufficient reserves to continue providing quality services to residents without increasing taxes. These strong reserve balances have kept the City solvent during the highway reconstruction and the economic downturn.

The unassigned fund balance of the General Fund at 2017 fiscal year end was \$7,884,591, while the total fund balance was \$7,901,849. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures and transfers out. Unassigned fund balance represents 68.45% of total General Fund current expenditures and transfers out, while total fund balance represents 68.60%. The General Fund unassigned fund balance is available for spending at the City's discretion.

The fund balance in the General Fund increased \$1,405,032 or 21.6% from the prior year fund balance. The change was primarily due to \$1,724,202 received from the sale of land.

Other Major Governmental Funds. Changes in other major governmental funds balances are:

- Fire and Emergency Services Fund increased by \$272,591 (42.7%) from the previous year.
- Parks and Recreation Cooperative (PARCs) and Storm Water Fund increased by \$234,720 (12.8%) from the previous year. The current reserve balance is at 44.76%.
- Debt Service Fund decreased \$1,708,866 (54.3%) from the previous year.
- Capital Projects Fund increased by \$2,546,043 (88.97%) from the previous year. Expenditures in this fund fluctuate from year to year as capital purchases and projects are on varying schedules for replacement and repair. The change during the year was primarily from the sale of surplus property \$3,926,475.

Fiduciary Funds

The City maintains a Pension Trust Fund for monies received and held for the benefit of the uniformed Police and Fire employees' pension and retirement fund. The Pension Trust Fund's net position increased \$5,749,965.

GENERAL FUND BUDGETARY HIGHLIGHTS

Over the course of the year, the City Council revised the City budget. Amendments fall into two categories:

- Supplemental appropriations and contingency transfers approved for unanticipated expenditures to provide for items necessary for the health and welfare of its citizens.
- Increases in appropriations, primarily by contingency transfer, to prevent budget overruns.

A significant budget change that occurred during the year was the Sale of Surplus Property revenues; the General Fund revenue was \$825,359 lower and the Capital Projects Fund revenue was \$877,570 higher. Resulting in a 32.37% decrease and 29.33% increase respectively. This change was due to a corrected distribution of the land sale at Hanley Road and Dale Avenue.

Page 11

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2017

CAPITAL ASSETS ADMINISTRATION

By the end of 2017, the City had \$33,583,841 in a broad range of capital assets including, land, buildings, and various machinery and equipment. This amount represents a net decrease of \$3,626,897 or 9.75%, since the prior fiscal year. See Note C of the notes to financial statements for more detailed information on capital assets.

Capital assets (net of depreciation) follows:

CITY OF RICHMOND HEIGHTS, MISSOURI Capital Assets (Net of Depreciation)

| | June | 30 | 2017 Cl | hange | |
|---------------------------|--------------|------------|-------------|----------|--|
| | 2017 | 2016 | Amount | Percent | |
| Land | \$ 6,132,656 | 9,364,489 | (3,231,833) | (34.51)% | |
| Right-of-way | 4,642,631 | 4,642,631 | - | - | |

| Total | \$33,583,841 | 37,210,738 | (3,626,897) | (9.75)% | |

LONG-TERM DEBT

The City had \$250,000 in certificates of participation long-term obligations at year-end. This is a decrease of 93.40%. The Series 2005 was retired August 2016 and the Series 2009 debt will be retired August 2017.

The City had \$345,000 in Special Obligation Bonds Series 2010A at year-end. This is a decrease of 31.68%. This debt will be retired in December 2018. The City had \$2,770,000 in Special Obligation-Build America Bonds Series 2010B. The first principal reduction will be paid in December 2019. This debt will be retired in 2030.

The City had \$9,780,000 in Tax Increment and Transportation Sales Tax Refunding and Improvement Revenue Bonds Series 2005 for the Francis Place Redevelopment Project Area (RPA) 1 at year-end. This is a decrease of 8.43%. This debt obligation will be met November 2025.

The City had \$2,020,000 in Manhassett Village NID Series 2012 Bonds at year-end. This is a decrease of 8.39%. This debt will be retired in April 2026.

The City had \$1,566,949 in the Energy Efficiency upgrade project equipment lease. This is a decrease of 7.77%. This debt will be retired in April 2027.

The City is liable for the compensated absence balances payable to all full-time employees, for unused accumulated vacation and compensation time earned, who have been employed for more than one year. On average employees' compensated absences remain constant.

D_{1 = 1}

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2017

See Note F of the notes to financial statements for more detailed information on long-term debt.

Long-term debt consists of the following:

CITY OF RICHMOND HEIGHTS, MISSOURI Outstanding Debt and Obligations

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

One of the primary sources of revenue to the City is based on taxable retail sales in the community (sales tax). This revenue source continues to remain strong. Sales taxes increased \$905,545 during the fiscal year. This includes new revenue realized from Menard's Home Improvement Center.

Residents of St. Louis County voted in favor of Proposition P in the April 2017 election, to adopt the half cent police and public safety sales tax. Approximately one-half of all revenues generated from this tax will go to St. Louis County for police, prosecutor, and corrections departments. The remaining one-half will be distributed among the 90 municipalities located within St. Louis County based on their population. St. Louis County projected that Richmond Heights's annual revenues from this source will be \$430,600. Collections on this tax began October 2017. The City conservatively estimates that six months of revenues will be received during the 17/18 fiscal year.

The City Council voted to dissolve the Francis Place Redevelopment TIF Project Areas 2 and 3 effective December 1, 2016. A new development, The Boulevard South, was submitted for Redevelopment Area 2. The project proposal and cost benefit analysis for The Boulevard South were submitted to the City and TIF commission. The TIF commission approved the new project November 2015. The City Council voted to approve and adopt the Redevelopment Project and designate it a TIF area effective December 1, 2016. There are no current plans to redevelop Project Area 3.

EVO, formerly known as The Manhassett Village, townhomes and apartment project began construction of a four phase development summer 2015. New residents began moving into Phase I during the summer 2016. Phase I is fully completed. Phase II began construction fall 2016, completion of this Phase is anticipated during the 18/19 fiscal year. There will be a combined total of 800 apartment and townhome units when all four phases are completed in approximately the 20/21 fiscal year. In addition to the EVO redevelopment project an 80 unit assisted living facility was completed on Eager

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEAR ENDED JUNE 30, 2017

Road, and construction began on an 85+ unit assisted living facility on Bellevue to be completed in 2018. Construction of a 40 unit townhome project on East Linden was completed in 2017. The City Council authorized a site plan review and preliminary development plan for a 185 unit mixed-use multi-family apartment complex, known as the Boland Place Apartments Project. These projects will bring in increased property and utility taxes. Additionally, it is anticipated that the increase in population will help the City retain sales tax revenues currently shared in the county wide sharing calculation. This calculation uses a sliding scale based on population.

The Brentwood/Clayton Road hotel redevelopment project continues to be delayed. The City will not realize new revenues from this development for one or more years.

The Certificate of Participation Series 2009 was paid off August 2017. The debt was paid using funds held in reserves and funds allocated from the Capital Improvement Fund.

The City contract with a development firm to prepare a feasibility study to renovate and expand The Heights Community Center and Memorial Library facility. The City Council and staff refined the study parameters and during the 17/18 fiscal year a \$1,250,000 budget was adopted to continue with the project and contract with a firm to prepare architectural design and construction documents.

The City contracted with an independent firm to perform a classification and compensation study during the 16/17 fiscal year. The study evaluated each position in comparison to the standard marketplace positions. Approximately 70% of employee salaries remained competitive with the marketplace. These annual salaries were within \$1,600 of the marketplace. Many of the salaries that were below the marketplace were entry level. Employee's salaries were adjusted as determined by the study results. The City has allocated funds for salary increases of a 3.58% effective July 1, 2017.

Three positions remain unfilled since the 2009 fiscal year hiring freeze; one in each of the Public Works, Fire, and Police Departments. Saving the City approximately \$215,000 in salary and benefits annually. Expenditures that continue to increase annually are solid waste removal, utility costs to operate City facilities, and insurance premiums for health, liability, property, and workers' compensation.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. If you have questions about this report or need additional information, contact the City of Richmond Heights, Missouri's finance office at 1330 S. Big Bend Blvd., Richmond Heights, MO 63117 (314-645-0404).

RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION

JUNE 30, 2017

| Total Fund Balances - Governmental Funds | \$ 19,027,866 |
|---|---------------|
| Amounts reported for governmental activities in the statement of net position are different because: | |
| Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the governmental funds. The cost of the assets is \$69,444,858 | |
| and the accumulated depreciation is \$35,861,017. | 33,583,841 |
| Assets that are not financial resources and are not available to pay for current period | |
| expenditures and, therefore, are unavailable in the governmental funds. | 2,074,752 |
| Certain items are not a financial resource and, therefore, are not reported in the governmental funds. These consist of: | |
| Net pension asset | 11,251,154 |
| Deferred outflows - pension related | 6,668,718 |
| Deferred inflows - pension related | (3,700,336) |
| Net OPEB liability | (488,325) |
| Certain long-term liabilities are not due and payable in the current period and, therefore, | |
| are not reported as liabilities in the governmental funds. Long-term liabilities at year- | |
| end consist of: | |
| Accrued compensated absences | (580,721) |
| Accrued interest | (135,003) |
| Equipment lease outstanding | (1,566,949) |
| Bonds payable outstanding | (15,165,000) |
| Unamortized bond premium | (180,584) |
| Unamortized bond discount | 15,349 |
| Total Net Position Of Governmental Activities | \$ 50,804,762 |

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

FOR THE YEAR ENDED JUNE 30, 2017

| Net Change In Fund Balances - Governmental Funds | \$ 2,874,265 |
|---|--------------|
| Amounts reported for governmental activities in the statement of activities are different because: | |
| Capital outlays are reported in the governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation (\$2,078,224) exceeded capital outlays over the capitalization threshold (\$1,819,993) in the current | |
| period. | (258,231) |
| The net effect of various transactions involving capital assets: Cost of disposals, net of accumulated depreciation | (3,368,666) |
| Revenues in the statement of activities that do not provide current financial resources are not reported in the governmental funds financial statements. | (192,638) |
| Debt proceeds are reported as financing sources in the governmental funds financial statements and thus contribute to the net change in fund balances. In the statement of net position, however, issuing debt increases and long-term liabilities does not affect the statement of activities. Similarly, repayment of principal is an expenditure in the governmental funds financial statements, but reduces the liability in the statement of net position. Repayments during the current year: | |
| Principal payments on debt Under the modified accrual basis of accounting used in the governmental funds financial statements, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the statement of activities, however, which is presented on the accrual basis of accounting, expenses and liabilities are reported regardless of when financial resources are available. The net change of these items are: | 4,916,967 |
| Accrued compensated absences | (21,979) |
| Accrued interest on debt | 102,202 |
| Premium amortization on debt issuances | 100,173 |
| Discount amortization on debt issuances | (9,981) |
| OPEB | (39,836) |
| Pension expense | (607,256) |
| Change In Net Position Of Governmental Activities | \$ 3,495,020 |

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The **CITY OF RICHMOND HEIGHTS, MISSOURI** (the City) was formed on December 29, 1913 and is comprised of three square miles. The City operates under a council-manager form of government and provides the following services: public safety (police and fire), public works, recreation, community development, and general administrative services.

The accounting methods and procedures adopted by the City conform to accounting principles generally accepted in the United States of America as applied to governmental entities. The following notes to the financial statements are an integral part of the City's financial statements.

1. Reporting Entity

The financial statements of the City include the financial activities of the City and any component units, entities which are financially accountable to the City. The component units discussed below are included in the City's reporting entity because of the significance of operational or financial relationships with the City.

Richmond Heights Memorial Library District (the Library) -- The component unit is reported in a separate column on the government-wide financial statements to emphasize that it is legally separate from the City. The City appoints all board members of the Library and has the right to terminate board members. The City imposes its will on the Library by approving the tax rate, collecting taxes, and paying the bills and employees of the Library. The Library is discretely presented in the financial statements and separate financial reports may be obtained from the City's finance department.

Hadley Township South (Menard's) Community Improvement District (CID) -- The CID was established in 2015 under the CID Act and is a separate legal entity. The City Council appoints all Board of Directors which consists of four City employees and one other and has the ability to impose its will on the board. The CID is discretely presented in the financial statements and separate financial reports may be obtained from the City's finance department.

2. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, if any, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the

D- -- 24

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. Government-wide and Fund Financial Statements (Continued)

operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

3. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental funds financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be measurable and available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due (i.e., matured).

Property taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

General Fund -- This fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

Fire and Emergency Services Fund -- This fund is used to account for all financial transactions related to the fire and emergency services revenues and expenditures. The major source of revenue comes from the City's fire protection sales tax.

D 45

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

PARCs and Storm Water Fund -- This fund is used to account for all financial transactions related to Parks and Recreation Cooperative (PARCs) and storm water revenues and expenditures. The major source of revenue is the storm water/local parks sales tax.

TIF District Fund -- This fund is used to account for all financial transactions related to the City's tax incremental financing districts revenues and expenditures. Major source of revenue is the sales and property tax.

Debt Service Fund -- This fund is used to account for the accumulation of resources for the payment of general long-term debt principal, interest, and related costs.

Capital Projects Fund -- This fund is used to account for financial resources to be used for the acquisition, construction, or improvements of major capital facilities and infrastructure (other than those financed by proprietary funds and trust funds).

Additionally, the City reports the following fiduciary fund type:

Police and Fire Pension Trust Fund -- This fund is used to account for the activities of the Police and Fire Pension Retirement Fund which accumulates resources for pension benefit payments to qualified uniformed public safety employees.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges and various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include: 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

4. Cash, Cash Equivalents, and Investments

The City maintains a cash and investment pool that is available for use by various funds. The City's cash and cash equivalents are comprised of cash deposits with banks, petty cash funds, and repurchase agreements. State statutes authorize the City to invest in obligations of the U.S. Treasury, federal agencies, commercial paper, corporate bonds, and repurchase agreements. Pension funds may also invest in corporate stock and mutual funds. Investments are stated at fair value.

D 44

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

5. **Allowance for Uncollectible Accounts**

The City calculates its allowance for uncollectible accounts using historical collection data and, in certain cases, specific account analysis. Other receivables are shown net of an allowance for uncollectible accounts of \$323.056.

6. **Inventory of Supplies**

Inventories of consumable supplies are recorded at cost (determined on a first-in, first-out basis). Inventory in the PARCs and Storm Water Fund consists of expendable supplies held for consumption. The costs are recorded as expenditures when consumed rather than when purchased.

7. **Restricted Assets**

Certain resources set aside for court bonds, cable escrow, and debt service are classified as restricted assets on the balance sheet because their use is limited by applicable covenants.

8. **Capital Assets**

Capital assets, which include property, equipment, and infrastructure (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Depreciation is being computed on the straight-line method, using asset lives as follows:

| Assets | Years |
|----------------------------|---------|
| Infrastructure | 5 - 40 |
| Buildings and improvements | 20 - 40 |
| Furniture and equipment | 3 - 10 |
| Vehicles | 3 - 5 |
| Land improvements | 5 - 40 |

9. **Compensated Absences**

The City accrues compensated absences when vested. The current and noncurrent portions are recorded in the government-wide financial statements.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

9. Compensated Absences (Continued)

Vacations accrue to employees based on their anniversary date of employment and are limited in total to 150% of the amount that can be earned by an employee during a 12-month period. Upon leaving the employment of the City, an employee is entitled to payment for accrued vacation.

10. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance cost, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

11. Encumbrances

Encumbrances are commitments related to unperformed contracts for goods or services. All appropriations and encumbrances lapse at year-end and are reappropriated and become part of the subsequent year's budget. There were no encumbrances as of June 30, 2017.

12. Interfund Transactions

Transfers of resources from a fund receiving revenue to the fund through which the resources are to be expended are recorded as transfers. Such transfers are reported as other financing sources (uses) in the governmental fund types.

13. Use of Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and the accompanying notes. Actual results could differ from those estimates.

14. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period(s) and so will not be recognized as an out-

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

14. Deferred Outflows/Inflows of Resources (Continued)

flow of resources (expense/expenditure) until then. The City currently has deferred outflows related to the pension.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The City has two items that qualify for reporting in this category. The first item arises under a modified accrual basis of accounting. The governmental funds report unavailable revenues from various sources reported on the governmental funds balance sheet. The City also has deferred inflows of resources related to the pensions reported on the statement of net position.

15. Fund Balance Policies

The fund balance amounts are reported in the following applicable categories listed from the most restrictive to the least restrictive:

Nonspendable -- The portion of fund balance that is not in a spendable form or is required to be maintained intact.

Restricted -- The portion of fund balance that is subject to external restrictions and constrained to specific purposes imposed by agreement, through constitutional provisions, or by enabling legislation.

Committed -- The portion of fund balance with constraints or limitations by formal action (ordinance) of the City Council, the highest level of decision-making authority.

Assigned -- The portion of fund balance that the City intends to use for a specific purpose as determined by the authority of the Mayor and City Council or the City Manager to which the Mayor and City Council has designated authority per Charter and ordinance.

Unassigned -- Amounts that are available for any purpose; these positive amounts are reported only in the General Fund.

When restricted, committed, assigned, and unassigned resources are available, the City will spend the most restricted amounts before the least restricted. In the PARCs and Storm Water Fund, the City will spend the least restricted amounts before the most restricted.

The fund balance of the City's General Fund has been accumulated to provide stability and flexibility to respond to unexpected adversity and/or opportunities. The target is to maintain an unassigned fund balance of not less than 25% of annual operating expenditures for the fiscal year

D . . 40

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

15. **Fund Balance Policies (Continued)**

and the overall goal is to achieve a fund balance equal to 33% of annual operating expenditures for the fiscal year.

16. Pensions

For purposes of measuring the net pension asset/liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City's defined benefit pension plans (the Plans) and additions to/deductions from the Plans fiduciary net position have been determined on the same basis as they are reported by the Plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE B - CASH AND INVESTMENTS

1. **Deposits**

Custodial credit risk for deposits is the risk that in the event of a bank failure, the City's deposits may not be returned or the City will not be able to recover collateral securities in the possession of an outside party. The City's bank deposits are required by state law to be secured by the deposit of certain securities specified at RSMo 30.270 with the City or trustee institution. The value of the securities must amount to the total of the City's cash not insured by the Federal Deposit Insurance Corporation.

As of June 30, 2017, the City's bank balances and its component units were entirely secured or collateralized with securities held by the City or by its agent in the City's name.

2. **Investments**

As of June 30, 2017, the City had the following investments:

NOTE B - CASH AND INVESTMENTS (Continued)

Investments Policies

Credit Risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The City minimizes credit risk by pre-qualifying the financial institutions, broker/dealers, intermediaries, and advisors with which the City will do business. The City's investment policy requires diversifying the portfolio to reduce potential losses on individual securities.

NOTE B - CASH AND INVESTMENTS (Continued)

2. Investments (Continued)

Interest Rate Risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The City minimizes interest rate risk by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity and investing primarily in shorter term securities. The City's investment policy requires 75% of the City's cash reserves to be held in short-term investments with less than two years maturity.

Concentration of Credit Risk is the risk of loss attributed to the magnitude of the City's investment in a single issuer. The City minimizes concentration of credit risk by diversifying the investment portfolio. The City's investment policy details the required credit risk concentration.

Concentration of credit risk is required to be disclosed by the City for investments in any one issuer that represent 5% or more of total investments (investments issued by or explicitly guaranteed by the United States Government, investments in mutual funds, investments in external investment pools, and investments in other pooled investments are exempt). Defined benefit plans are required to disclose investments in any one issuer that represent 5% or more of total plan net position with the same exemptions as above. At June 30, 2017, the City had the following investment concentrations:

| | Fair | Percent Of Total |
|---|---------------|--|
| Investments | Value | Investments |
| Primary Government | | |
| Federal Home Loan Mortgage | \$ 4,479,489 | 49.77 % |
| Federal Farm Credit Bank | 3,083,865 | 34.26 |
| | | Percent Of Total Plan Net Position |
| Fiduciary Fund | | |
| Vanguard 500 Index Fund Adm | \$ 15,026,329 | 28.21 % |
| Silchester International Value Equity Trust | 11,671,382 | 21.91 |
| Quaker Small-Cap Value Fund Class I | 5,457,553 | 10.24 |
| AJO Emerging Markets All-Cap Offshore Fund | 5,148,987 | 9.67 |

Foreign Currency Risk is the risk that changes in exchange rates will adversely impact the fair value of an investment. The City's currency risk exposures, or exchange rate risk, primarily reside within the City's international investment holdings. The City's investment policy limits the City's exposure to foreign investments.

D- -- 22

NOTE B - CASH AND INVESTMENTS (Continued)

3. Fair Value Measurements

The City classifies its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The City has the following recurring fair value measurements:

| | | J | | |
|---|---------------|------------|-----------|---------|
| | Total | Level 1 | Level 2 | Level 3 |
| Governmental Funds | · | | | |
| Investments by fair value level: | | | | |

NOTE C - CAPITAL ASSETS (Continued)

Depreciation expense was charged to functions/programs of the primary government as follows:

| | For The Year Ended June 30 2017 | |
|---|--|--|
| Governmental Activities | | |
| General government | \$ 90,533 | |
| Public safety | 612,575 | |
| Public works, including depreciation of infrastructure assets | 964,047 | |
| Parks and recreation | 411,069 | |
| Total | \$ 2,078,224 | |

NOTE D - PROPERTY TAXES

Property taxes are levied in October of each year on the assessed value as of the prior January 1 for all real property located in the City. Property taxes attach as an enforceable lien on property as of January 1 and are due upon receipt of billing and become delinquent after December 31.

Property tax revenue is recognized to the extent it is collected within the current period or expected to be collected within 60 days after year-end is deferred on the fund financial statements and recognized as revenue in the government-wide financial statements.

All property tax assessment, billing, and collection functions are handled by the St. Louis County government. Taxes collected are remitted to the City by the St. Louis County Collector (the County Collector) in the month subsequent to the actual collection date. Taxes held by the County Collector, if any, are included in municipal taxes receivable in the accompanying fund financial statements.

NOTE E - INSURANCE PROGRAMS

The City, along with various other local governments, participates in an insurance trust for workers' compensation and for general liability matters (St. Louis Area Insurance Trust - SLAIT). The purpose of this trust is to distribute the cost of self-insurance over similar entities. The trust requires an annual premium payment to cover estimated claims payable and reserves for claims from each entity. The members of the trust have no legal interest in the assets, liabilities, or fund balances of the insurance trust; however, the City retains a contingent liability to fund its pro rata share of any deficit incurred by the trust should the trust cease operations at some future date. As a member of the self-insured pool, the City may become liable for deficits of the pool created if claims should exceed existing reserves. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three fiscal years. The trust has contracted with an insurance agent to handle all administrative matters, including processing of claims filed.

NOTE F - LONG-TERM DEBT

Long-term liability activity was as follows:

| | For | Amounts | | | |
|--------------------------------|----------------------------|-----------|------------|----------------------------|---------------------------|
| | Balance June 30 2016 | Additions | Reductions | Balance June 30 2017 | Due Within One Year |
| Governmental Activities | | | | | |
| Certificates of participation: | | | | | |
| Series 2005 | \$ 3,225,000 | - | 3,225,000 | - | - |
| Series 2009 | 565,000 | - | 315,000 | 250,000 | 250,000 |
| Total Certificates Of | | | | | |
| Participation | 3,790,000 | - | 3,540,000 | 250,000 | 250,000 |
| Special obligation bonds: | | | | | |
| Series 2010A | 505,000 | - | 160,000 | 345,000 | 170,000 |
| Series 2010B "Build America | | | | | |
| Bonds" | 2,770,000 | - | - | 2,770,000 | - |
| TIF bonds payable | 10,680,000 | - | 900,000 | 9,780,000 | 990,000 |
| NID bonds payable: | | | | | |
| Series 2012 | 2,205,000 | - | 185,000 | 2,020,000 | 190,000 |
| Equipment lease | 1,698,916 | - | 131,967 | 1,566,949 | 136,058 |
| Bond discount | (25,330) | - | (9,981) | (15,349) | - |
| Bond premium | 280,757 | - | 100,173 | 180,584 | - |
| Compensated absences | 558,742 | 684,948 | 662,969 | 580,721 | 174,216 |
| Total Governmental | | | | | |
| Activities | \$ 22,463,085 | 684,948 | 5,670,128 | 17,477,905 | 1,910,274 |
| Component Unit - Library | | | | | |
| Compensated absences | \$ 12,641 | 9,612 | 3,474 | 18,779 | 5,634 |

Compensated absences are liquidated based on the fund that pays an employee's salary. These funds include the General Fund, Fire and Emergency Services Fund, and PARCs and Storm Water Fund.

Certificates of Participation

In April 2005, the City issued certificates of participation, Series 2005 in the amount of \$15,825,000 maturing August 2017. The proceeds were used by the City to advance refund a portion of the Series 1997A certificates of participation. The Series 2005 certificates of participation bear interest ranging from 3% to 5% and are repaid through a Debt Service Fund. In August 2016, the City used the reserves to pay the remaining balance.

In March 2009, the City issued certificates of participation, Series 2009 in the amount of \$2,350,000, the proceeds of which were used to advance refund \$2,350,000 of outstanding Series 1997A certificates of participation. The Series 2009 certificates of participation bear interest ranging from 3% to 3.6% and are repaid through a Debt Service Fund.

Annual debt service requirements are as follows:

NOTE F - LONG-TERM DEBT (Continued)

| Year Ending June 30 | Principal | Interest | Total |
|---------------------|------------|----------|---------|
| 2018 | \$ 250,000 | 4,531 | 254,531 |

Special Obligation Bonds

In June 2010, the City issued special obligation bonds, Series 2010A in the amount of \$1,230,000 with interest ranging from 3% to 5% and taxable Build America Bonds, Series 2010B in the amount of \$2,770,000 with interest ranging from 5.8% to 6.2%. The proceeds will be used by the City for various capital expenditures including vehicles, IT, and road construction. The bonds are special obligations of the City, payable solely from annual appropriations. The payments will be made from a Debt Service Fund.

Annual debt service requirements are as follows:

| For The Years Ending June 30 | <u>Principal</u> | <u>Interest</u> | <u>Total</u> |
|------------------------------------|------------------|-----------------|--------------|
| 2018 | \$ 170,000 | 180,078 | 350,078 |
| 2019 | 175,000 | 171,453 | 346,453 |
| 2020 | 185,000 | 161,665 | 346,665 |
| 2021 | 190,000 | 150,693 | 340,693 |
| 2022 | 200,000 | 139,281 | 339,281 |
| 2023 - 2027 | 1,125,000 | 506,785 | 1,631,785 |
| 2028 - 2031 | 1,070,000 | 137,104 | 1,207,104 |
| | | | |
| Total | \$ 3,115,000 | 1,447,059 | 4,562,059 |

Tax Increment Finance Bonds

In April 2005, the City issued tax increment and transportation sales tax refunding and improvement revenue bonds in the amount of \$19,000,000 with interest at 3.7% to 5.625%. The proceeds were used by the City to redevelop the Francis Place Project area. The bonds are special limited obligations of the City, payable solely from payments in lieu of taxes attributable to the increase in assessed value of real property, incremental increases in economic activity taxes in the project area, and certain transportation development district revenues and Debt Service Reserve Fund. The bonds do not constitute a general obligation of the City. The payments will be made from a Debt Service Fund.

Neighborhood Improvement Development (NID) Bonds

In March 2012, the City issued \$2,570,000 in refunding NID bonds with interest 2% to 4%. The proceeds were used by the City for the Manhassett Village NID and to retire the Series 2006 NID Bonds. The bonds are pay-

NOTE F - LONG-TERM DEBT (Continued)

able from special assessments levied upon property benefited by the acquisition and construction of improvements paid for by the proceeds of the bond. If not paid in that manner, then bonds are payable from the current income and revenues and surplus funds of the City. The payments will be made from the Capital Projects Fund.

Annual debt service requirements are as follows:

| For The Years Ending June 30 | <u>Principal</u> | <u>Interest</u> | <u>Total</u> |
|------------------------------|------------------|-----------------|--------------|
| 2018 | \$ 190,000 | 70,688 | 260,688 |
| 2019 | 195,000 | 64,988 | 259,988 |
| 2020 | 200,000 | 59,138 | 259,138 |
| 2021 | 210,000 | 53,138 | 263,138 |
| 2022 | 215,000 | 46,838 | 261,838 |
| 2023 - 2027 | 1,010,000 | 106,650 | 1,116,650 |
| Total | \$ 2,020,000 | 401,440 | 2,421,440 |

Equipment Lease Payable

The City has entered into an equipment lease agreement as lessee for financing the acquisition of energy efficient HVAC equipment.

The assets acquired through capital leases are as follows:

| HVAC equipment | \$ 2,819,497 |
|---------------------------------|------------------------------|
| Less - Accumulated depreciation | (587,395) |
| Total | \$ 2,232,102 |
| Total | $\underline{\psi}$ 2,232,102 |

The future minimum lease obligations and the net present value of these minimum lease payments are as follows:

| For The Years Ending June 30 | <u>Principal</u> | <u>Interest</u> | <u>Total</u> |
|------------------------------|------------------|-----------------|--------------|
| 2018 | \$ 136,058 | 48,575 | 184,633 |
| 2019 | 140,275 | 44,358 | 184,633 |
| 2020 | 144,624 | 40,009 | 184,633 |
| 2021 | 149,107 | 35,526 | 184,633 |
| 2022 | 153,730 | 30,903 | 184,633 |
| 2023 - 2027 | 843,155 | 80,010 | 923,165 |
| Total Minimum Lease Payments | \$ 1,566,949 | <u>279,381</u> | 1,846,330 |

NOTE G - INTERFUND ASSETS/LIABILITIES

Individual interfund assets and liabilities are as follows:

Due from/to other funds:

| Receivable Fund | Payable Fund | June 30 |
|-----------------|--------------------------------|-------------|
| General Fund | Biometric Inmate Security Fund | \$ 7,320 |

The outstanding balances between the funds result mainly from the time lag between the dates that: 1) interfund goods and services are provided or reimbursable expenditures occur, or 2) transactions are recorded in the accounting system, and 3) payments between funds are made. All interfund balances are expected to be repaid during the next fiscal year.

NOTE H - INTERFUND TRANSFERS

Individual fund transfers are as follows:

| Transfers Out | <u>Transfers In</u> | For The Year Ended June 30 2017 |
|-----------------------------|-----------------------------|--|
| General | Fire and Emergency Services | \$ 1,235,681 |
| General | Debt Service | 378,743 |
| General | TIF District | 310,430 |
| Fire and Emergency Services | Debt Service | 33,154 |
| Fire and Emergency Services | TIF District | 56,915 |
| PARCs and Storm Water | General | 267,000 |
| PARCs and Storm Water | Debt Service | 172,399 |
| PARCs and Storm Water | TIF District | 113,831 |
| Debt Service | Capital Projects | 51,703 |
| Capital Projects | General | 280,715 |
| Capital Projects | Fire and Emergency Services | 13,907 |
| Capital Projects | Debt Service | 2,439,591 |
| Capital Projects | TIF District | 107,405 |
| Nonmajor | General | 23,340 |
| TIF District | Capital Projects | 433,500 |
| TIF District | Debt Service | 861,399 |
| Total | | \$ 6,779,713 |

D. . . 20

NOTE H - INTERFUND TRANSFERS (Continued)

Interfund transfers were used to: 1) move revenues from the fund that ordinance or budget requires to collect them to the fund that ordinance or budget requires to expend them, 2) move revenues in excess of current year expenditures to other funds.

NOTE I - PENSION PLAN

The City maintains a single-employer, defined benefit pension plan (Police and Fire Pension Retirement Fund) which covers all of its uniformed public safety employees and also participates in the state-wide Missouri Local Government Retirement System (LAGERS), an agent multiple-employer, defined benefit pension plan which covers all of the City's full-time general employees.

1. Police and Fire Retirement Fund

General Information about the Plan

Plan Description

The City's Police and Fire Retirement Fund (the Plan) provides pensions for all of its uniformed public safety employees. The Plan was created and is governed by City ordinance. The Plan does not issue a separate stand-alone financial report. The financial information is included as a Trust Fund in the City's financial statements. Information about the Plan is provided in a summary plan description.

Benefits Provided

The Plan provides retirement and death benefits to plan members and beneficiaries in accordance with the ordinance establishing the Plan. The Plan may be amended under the provisions of the original ordinance.

Employees attaining the age of 60 or who have completed 30 years of service are entitled to annual lifetime benefits equal to 70% of the average base pay of the employee for the three years prior to the employee's date of termination of employment. The benefits are payable monthly.

If an employee terminates his or her employment with the police or fire departments and is not eligible for any other benefits under the Plan, the employee is entitled to a refund of his or her contributions plus interest credited at 5% per annum. If an employee terminates his or her employment with the police or fire departments and is eligible for benefits under the Plan (vesting is 100% after 15 years of service), the benefits would commence at the earlier of the attainment of age 60 or completion of 30 years of service. The amount of the benefits the employee is entitled to is 70% of the average base pay of the employee for the three years prior to the employee's termination date reduced proportionately for the number of years of service less than 30 years.

NOTE I - PENSION PLAN (Continued)

1. Police and Fire Retirement Fund (Continued)

The benefits are payable for life on a monthly basis (surviving spouse's benefits cease upon the earlier of death or remarriage). A one-time lump sum equal to the participants accumulated employee contributions, without interest, is payable after retirement at the earlier of age 60 or the 30th anniversary of employment.

Disability benefits are paid until the earlier of death or recovery from disability. Active employees who become disabled receive a $66\frac{2}{3}\%$ of retirement base pay. An employee whose permanent and total disability did not result from the performance of duties after two years of service is entitled to annual benefits equal to the greater of 25% of retirement base pay or 70% of retirement base pay reduced proportionately for less than 30 years of service at the date of disability.

If an active employee dies, the employee's beneficiary receives the following benefits:

Funeral death benefit -- \$5,000 lump sum payment.

Duty death benefit -- A monthly annuity equal to 50% of retirement base pay for an eligible spouse, plus an additional 5% for each unmarried child under age 20 payable monthly. A spouse's payments cease upon the earlier of death or remarriage. Children's payments cease upon the earlier of death, marriage, or the attainment of age 20.

Nonduty death benefit -- A monthly annuity equal to 25% of retirement base pay for an eligible spouse, plus an additional 5% for each unmarried child under age 20, subject to a total maximum benefit of 50% base pay. A spouse's payments cease upon the earlier of death or remarriage. Children's payments cease upon the earlier of death, marriage, or the attainment of age 20.

Employees Covered by Benefit Terms

At July 1, 2017, the following employees were covered by the benefit terms:

| Retirees and beneficiaries currently receiving benefits | 40 |
|---|-----|
| Inactive employees entitled to but not yet receiving benefits | 1 |
| Active employees | 62_ |
| Total | 103 |
| Total | 103 |

Contributions

Police and fire employees are required to contribute 3% of annual base pay to the Plan. The City assesses a tax of \$0.314 to \$0.320 per \$100 of assessed valuation for its contribution to the Plan. Contribution to the Plan is determined annually by City Ordinance.

D---- 41

NOTE I - PENSION PLAN (Continued)

1. Police and Fire Retirement Fund (Continued)

Net Pension Liability (Asset)

The City's net pension liability (asset) was measured as of July 1, 2017, and the total pension liability used to calculate the net pension asset was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The total pension liability in the July 1, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.5%
Salary increase 5%, including inflation
Investment rate of return 6.5%, net of pension plan investment expense, including inflation

Mortality rates are based in the RP-2014 Blue Collar Health Annuitant Mortality Table projected 2 years after the valuation, with MP-2014 Mortality Improvement Scale. The margin for future mortality improvement is the projection 2 years after the valuation date.

The long-term expected rate of return on pension plan investments was determined using a model method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

| Asset Class | Target Allocation | Expected Real Rate Of Return |
|------------------------|-------------------|---------------------------------|
| Equity Fixed income | 65.00 % 35.00 | 6.50 % 3.56 |
| Total | 100.00 % | |

Discount Rate

Projected benefit payments are required to be discounted to their actuarial present values using a single discount rate that reflects: 1) a long-term expected rate of return on pension plan invest-

Page 42

NOTE I - PENSION PLAN (Continued)

1. Police and Fire Retirement Fund (Continued)

ments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits) and 2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the plan's projected fiduciary net position is not sufficient to pay benefits).

For the purpose of this valuation, the expected rate of return on pension plan investments is 6.5%; the municipal bond rate is 3.56% (as defined) and the resulting single discount rate is 6.5%.

Changes in the Net Pension Liability (Asset)

| | Increase (Decrease) | | | |
|-------------------------------------|-----------------------------------|---------------------------------------|---|--|
| | Total Pension Liability (a) | Plan Fiduciary Net Position (b) | Net Pension Liability (Asset) (a)-(b) | |
| Balances at June 30, 2016 | \$ 38,630,931 | 47,521,801 | (8,890,870) | |
| Changes for the year | | | | |
| Service cost | 1,062,741 | - | 1,062,741 | |
| Interest | 2,673,241 | - | 2,673,241 | |
| Differences between expected and | | | | |
| actual experience | 356,646 | - | 356,646 | |
| Changes in assumptions | 2,632,764 | - | 2,632,764 | |
| Contributions - employer | - | 934,079 | (934,079) | |
| Contributions - employee | - | 130,672 | (130,672) | |
| Net investment income | - | 6,651,716 | (6,651,716) | |
| Benefit payments, including refunds | (1,946,297) | (1,946,297) | - | |
| Administrative expense | - | (20,205) | 20,205 | |
| Net Changes | 4,779,095 | 5,749,965 | (970,870) | |
| Balances at June 30, 2017 | \$ 43,410,026 | 53,271,766 | (9,861,740) | |

Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate

The following presents the net pension liability (asset) of the City, calculated using the discount rate of 6.5%, as well as what the City's net pension liability (asset) would be if it were calculated using a discount rate that is 1% point lower (5.5%) or 1% point higher (7.5%) than the current rate.

| | | Current Single Discount Rate | | |
|-------------------------------|----|------------------------------|-------------|--------------|
| | 1 | % Decrease | Assumption | 1% Increase |
| Net pension liability (asset) | \$ | (4,071,176) | (9,861,740) | (14,679,768) |

NOTE I - PENSION PLAN (Continued)

1. Police and Fire Retirement Fund (Continued)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2017, the City recognized pension expense of \$1,140,773. At June 30, 2017, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | Outflows | Inflows | Net Outflows |
|---|--------------|-------------|--------------|
| Differences between expected and actual | | | |
| experience | \$ 303,649 | (952,092) | (648,443) |

Plan Description

The City's defined benefit pension plan provides certain retirement, disability, and death benefits to plan members and beneficiaries. The City participates in the Missouri Local Government Employees Retirement System (LAGERS). LAGERS is an agent multiple-employer, statewide public employee pension plan established in 1967 and administered in accordance with RSMo

NOTE I - PENSION PLAN (Continued)

2. **LAGERS**

70.600-70.755. As such, it is LAGERS' responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and is tax exempt. The responsibility for the operations and administration of LAGERS is vested in the LAGERS' Board of Trustees consisting of seven persons. LAGERS issues a publicly available financial report that includes financial statements and required supplemental information. This report may be obtained by accessing the LAGERS' website at www.molagers.org. Amounts include the component unit which is not able to be separated.

Benefits Provided

LAGERS provides retirement, death, and disability benefits. Benefit provisions are adopted by the governing body of the employer, within the options available in the state statutes governing LAGERS. All benefits vest after 5 years of credited service. Employees who retire on or after age 60 with 5 or more years of service are entitled to an allowance for life based upon the benefit program information provided below. Employees may retire with an early retirement benefit with a minimum of 5 years of credited service and after attaining age 55 and receive a reduced allowance.

2017 Valuation

| Benefit multiplier | 2% for life |
|----------------------|-------------|
| Final average salary | 3 years |
| Member contributions | 4% |

Benefit terms provide for annual post-retirement adjustments to each member's retirement allowance subsequent to the member's retirement date. The annual adjustment is based on the increase in the Consumer Price Index and is limited to 4% per year.

Employees Covered by Benefit Terms

At June 30, 2017, the following employees were covered by the benefit terms:

| Inactive employees and beneficiaries currently receiving benefits | 36 |
|---|-----------|
| Inactive employees entitled to but not yet receiving benefits | 38 |
| Active employees | <u>61</u> |
| | |

Total 135

Contributions

The City is required to contribute amounts at least equal to the actuarially determined rate, as established by LAGERS. The actuarially determined rate is the estimated amount necessary to

NOTE I - PENSION PLAN (Continued)

2. LAGERS (Continued)

finance the cost of benefits earned by employees during the year, with an additional amount to finance an unfunded accrued liability. Full-time employees of the City contribute 4% of their gross pay to the pension plan. The City contribution rates are 4.5% (General) of annual covered payroll.

Net Pension Liability (Asset)

The City's net pension liability (asset) was measured as of June 30, 2017, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of February 28, 2017.

Actuarial Assumptions

The total pension liability in the February 28, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation
Salary increase
Investment rate of return

3.25% wage inflation; 2.50% price inflation 3.25% to 6.55% including wage inflation 7.25%, net of investment expenses

The healthy retiree mortality tables for post-retirement mortality were RP-2014 Healthy Annuitant mortality table for males and females. The disabled retiree mortality tables for post-retirement mortality were the RP-2014 disabled mortality table for males and females. The pre-retirement mortality table used were the RP-2014 employees' mortality tables for males and females.

Both the post-retirement and pre-retirement tables were adjusted for mortality improvement back to the observation period base year of 2006. The base year for males was then established to be 2017. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to the above described tables.

The actuarial assumptions used in the February 28, 2017 valuation were based on the results of an actuarial experience study for the period March 1, 2010 through February 28, 2015.

The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

D 44

NOTE I - PENSION PLAN (Continued)

2. LAGERS (Continued)

| | | Long-term |
|------------------|-------------------|-----------|
| | | Expected |
| | Target | Real Rate |
| Asset Class | Allocation | Of Return |
| | | |
| Equity | 43.00% | 5.29% |
| Fixed income | 26.00 | 2.93 |
| Real assets | 21.00 | 3.31 |
| Strategic assets | 10.00 | 5.73 |

Discount Rate

The discount rate used to measure the total pension liability is 7.25%. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at the rates agreed upon for employees and the actuarially determined rates for employeers. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payment to determine the total pension liability.

Changes in the Net Pension Liability (Asset)

| | Increase (Decrease) | | | | |
|-------------------------------------|---------------------|---------------------------------|---------------------------------------|---|--|

NOTE I - PENSION PLAN (Continued)

2. LAGERS (Continued)

Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate

The following presents the net pension liability (asset) of the City, calculated using the discount rate of 7.25%, as well as what the City's net pension liability (asset) would be using a discount rate that is 1% point lower (6.25%) or 1% point higher (8.25%) than the current rate.

| | | Current Single Discount Rate | • | | |
|-------------------------------|--------------|------------------------------|-------------|--|--|
| | 1% Decrease | Assumption | 1% Increase | | |
| Net pension liability (asset) | \$ 1,038,061 | (1,526,346) | (3,596,668) | | |

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2017, the employer recognized pension expense of \$604,253. Reported deferred outflows and inflows of resources are related to pensions from the following sources:

| | Outflows | | Inflows | Net Outflows |
|---|----------|---------|----------|---------------------|
| Differences between expected and actual | | | | |
| experience | \$ | - | (69,036) | (69,036) |
| Assumption changes | | 274,949 | _ | 274,949 |
| Net difference between projected and actual | | | | |
| earnings on pension plan investments | | 435,780 | | 435,780 |
| Total | \$ | 710,729 | (69,036) | 641,693 |

Amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

| For The Plan Years Ending June 30 | |
|-----------------------------------|------------|
| 2018 | \$ 328,757 |
| 2019 | 328,758 |
| 2020 | 127,482 |
| 2021 | (143,304) |
| Total | \$ 641,693 |

Payable to the Pension Plan

Included in accounts payable, the City reported a payable of \$22,472 for the outstanding amount of contributions to the pension plan required for the year ended June 30, 2017.

NOTE J - OTHER POST-EMPLOYMENT BENEFITS (OPEB) OTHER THAN PENSIONS

Plan Description

The City provides a single-employer defined benefit plan that provides healthcare benefits to employees and their spouses who are eligible to retire once they have attained age 51 plus 12 years of service, or age 55 with 5 years of service for the general group of employees, or age 60 with any years of service or 30 years of service, regardless of age, for the police/fire group of employees. Coverage ceases upon eligibility for Medicare. Employees and spouses must be on the plan at time of retirement to be eligible to participate in the plan after retirement. Medical and prescription drug benefits are available to retirees in the City's insurance plan. Employees who meet retiree healthcare eligibility conditions may also purchase dental benefits until age 65 or eligible for Medicare, whichever is first. Retirees must contribute 100% of the retiree healthcare premiums for single/family coverage. The City's annual OPEB cost (expense) is calculated based on the ARC of the employer, an amount actuarially determined in accordance with the parameters of GASB 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any UAAL. Actuarial calculations are based on the OPEB provided under the terms of the plan in effect at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point. Actuarial calculations of the OPEB plan reflect a long-term perspective, involve estimates of the value of reported amounts and assumptions about the probability of events far into the future, and determine amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. The latest actuarial valuation was for the plan year ended June 30, 2015 and the ARC and related amounts were determined through June 30, 2017. The City's annual OPEB cost for the current year and the related information are as follows:

| | For The OPEB Fiscal Year Ended June 30 2017 |
|-----------------------------------|---|
| Amortization of past service cost | \$ 33,051 |
| Normal cost | 63,945 |
| Interest to end of fiscal year | _ |
| ARC | 96,996 |
| Interest on net OPEB obligation | 17,940 |
| Adjustment to ARC | (16,334) |
| Annual OPEB Cost | 98,602 |
| Contributions made | (58,766) |
| Increase In Net OPEB Obligation | 39,836 |
| Net OPEB obligation at July 1 | 448,489 |
| Net OPEB Obligation at June 30 | \$ 488,325 |

The Plan was established by City Ordinance, which assigned the authority to establish and amend plan benefit provisions to the City. The contribution requirements of the City and plan members are established and may be amended by the City. The OPEB is expected to be liquidated by the General Fund.

Healthcare cost trend 9% in 2015 grading to 4% in 2024

No separate audited GAAP - basis post-employment benefit plan report is available for the City's OPEB plan.

NOTE K - CONTINGENCIES AND COMMITMENTS

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

The City generally follows the practice of recording liabilities resulting from claims and legal actions only when they become fixed and determinable in amount. Various cases against the City are presently pending. It is management's opinion that any liability resulting from pending suits in excess of insurance coverage will not have a material effect on the basic financial statements of the City at June 30, 2017.

NOTE L - JOINT VENTURES

The City has been in cooperation with other municipalities to create a joint dispatching service. The administration of the joint dispatching venture is overseen by a Board of Directors, comprised of the City Manager from each of the participating municipalities. This joint venture was developed in order to share operating costs thereby saving overall expenses incurred by each participating municipality. In addition, the joint effort is expected to improve equipment and increase the likelihood of obtaining grant funds. This joint venture has not currently enhanced or hindered the City's financial operations. The City remains liable for their representative share of current and potential liabilities. A separately issued financial report can be obtained for this entity at the City's finance department.

NOTE M - TAX INCREMENT REVENUES PLEDGED

The City has pledged a portion of future tax revenues to repay tax increment revenue bonds issued to finance certain improvements in the City. The bonds are payable solely from the incremental taxes generated by increased sales and assessed property values in the improved area. Incremental taxes were projected to produce 100% of the debt service requirements over the life of the bonds. Total principal and interest remaining on the bonds per Note F is payable through November 2026. For the current year, principal and interest paid and total incremental tax revenues were \$1,491,555 and \$1,425,655, respectively.

The City entered into an agreement with Menard, Inc. to pledge City TIF revenues and Menard's CID revenues to be used towards repayment of the redevelopment project costs upon substantial completion. The project was considered substantially complete in September 2016. The amount of the City's obligation shall not exceed \$15,000,000 plus interest costs provided interest costs shall not exceed \$13,000,000 and gross total reimbursement payments not to exceed \$28,000,000. For the current year, payments made and total incremental tax revenues were \$804,854 and \$1,062,334, respectively.

NOTE N - RESTRICTED NET POSITION

The government-wide statement of net position reports \$13,180,969 of restricted net position, of that amount \$11,481,211 is restricted by enabling legislation.

NOTE O - TAX ABATEMENTS

Under Chapter 353 of the Revised Statutes of Missouri (RSMO), real property tax abatement is available within "blighted areas". Under this program, an eligible city or county may approve a redevelopment plan that provides for tax abatement for up to 25 years, thus encouraging the redevelopment of the blighted area. To be eligible an Urban Redevelopment Corporation must be formed and must take title to the property to be redeveloped. During the terms of the program, a certain percentage of the property tax amount for the assessed value of the eligible property is abated. Under the 353 Abatement Program, the City had two tax abatements during fiscal year 2017 and property taxes abated under this program totaled approximately \$195,100.

NOTE P - FUTURE ACCOUNTING PRONOUNCEMENTS

GASB Statement No. 75 (GASB 75), Accounting and Financial Reporting for Post-employment Benefits Other than Pensions, amends GASB 45 as they relate to governmental employers that provide post-employment benefits other than pensions. GASB 75 will be effective for the year ending June 30, 2018. GASB 75 establishes procedures for measuring and recognizing the obligations associated with post-employment benefits other than pension. Also included in GASB 75 are amendments to the notes to the financial statements and requires supplemental information requirements.

CITY OF RICHMOND HEIGHTS, MISSOURI REQUIRED SUPPLEMENTAL INFORMATION

GENERAL FUND

The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

FIRE AND EMERGENCY SERVICES FUND

The Fire and Emergency Services Fund is used to account for all financial transactions related to the fire and emergency services revenues and expenditures.

PARCS AND STORM WATER FUND

The PARCs and Storm Water Fund is used to account for all financial transactions related to PARCs and storm water revenues and expenditures.

TIF DISTRICT FUND

The TIF District Fund is used to account for the ad valorem real estate tax assessed and incremental sales taxes collected within the TIF district, which funds are to be utilized for promotion, maintenance, and improvements of the area.

Budgets and Budgetary Accounting

The City Council annually adopts budgets for the General, Special Revenue, Debt Service, and Capital Projects Funds of the primary government. All appropriations are legally controlled at the departmental level for the individual funds. On June 20, 2016, the City Council formally approved the original adopted budget and on November 20, 2017 approved the revised budget reflected in the financial statements.

The City follows these procedures in establishing the budgetary data reflected in the financial statements.

- a. The City Manager submits to the City Council a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed operating expenditures, capital expenditures, and the means for financing them.
- b. Public hearings are conducted to obtain comments from all interested parties.
- c. The budget for the coming year is formally adopted on or before the last day of the current fiscal year.
- d. The City Manager is authorized to transfer budgeted amounts within any department. The City Council may, by ordinance, transfer part or all of an unencumbered appropriation balance from one department to another.
- e. Under Missouri law, expenditures may not legally exceed budgeted appropriations at the fund level. If expenditures for a fund exceed the budget, either then the budget must be amended or the City Council must pass a resolution authorizing the expenditures in excess of the budget.

The budgets are integrated into the accounting system and the budgetary data, as presented in the financial statements for all funds with annual budgets, compare the expenditures with the amended budgets. All budgets are presented on the modified accrual basis of accounting. Accordingly, the budgetary comparison schedule for the General, Special Revenue, Debt Service, and Capital Projects Funds presents actual expenditures in accordance with the accounting principles generally accepted in the United States of America on a basis consistent with the legally adopted budgets as amended. All annual appropriations lapse at fiscal year-end. Encumbrances are reappropriated to the ensuing year's budget.

Notes to schedule:

Valuation date:

Actuarially determined contribution rates are calculated as of July 1 of odd numbered years

Methods and assumptions used to determine contribution rates:

Actuarial cost method Individual entry age normal

Amortization method Level percent of payroll, open for positive UAAL, zero if negative

Remaining amortization period

Asset valuation method 4 year smoothed market; 20% corridor

Inflation 2.5%

Salary increases 5%, including inflation

Investment rate of return 6.5%

Retirement age Age and service-based table of rates that are specific to the type of

eligibility condition.

RP-2014 Blue Collar Health Annuitant Mortality Table projected 2 years after Mortality the valuation, with MP-2014 Mortality Improvement Scale. The margin for

future mortality improvement is the projection 2 years after the valuation date

Other information:

Assumption changes are reflected in the TPL as of July 1, 2017.

Participants and beneficiaries in pay status prior to July 1, 1987 are assumed to receive 4% cost-of-living increases per year. After July 1, 1987, 5% to age 55 NRA for retirees. Surviving spouse annual benefit adjustments do not cease.

Notes to schedule:

Valuation date:

Actuarially determined contribution rates and covered employee payroll are calculated as of February 28/29 prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial cost method Amortization method

Remaining amortization period

Asset valuation method
Inflation
Salary increases
Investment rate of return
Retirement age
Mortality

Other information:

There were no benefit changes during the year.

Entry age normal and modified terminal funding

A level percentage of payroll amortization method is used to amortize the UAAL over a closed period of years. If the UAAL (excluding the UAAL associated with benefit changes) is negative, then this amount is amortized over the greater of (i) the remaining initial amortization period or (ii) 15 years.

Multiple bases from 15 to 19 years 5 years smoothed market; 20% corridor 3.25% wage inflation; 2.50% price inflation 3.25% to 6.55%, including wage inflation 7.25% net of investment expenses

Experience-based table of rates that are specific to the type of eligibility condition. The healthy retiree mortality tables for post-retirement mortality were the RP-2014 Healthy Annuitant mortality table for males and females. The disabled retiree mortality tables for post-retirement mortality were the RP-2014 disabled mortality table for males and females. The pre-retirement mortality tables used were the RP-2014 employees' mortality tables for males and females. Both the post-retirement and pre-retirement tables used were adjusted for mortality improvement back to the observation period base year of 2006. The base year for males was then established to be 2017. Mortality rates for a particular calendar year are determined by applying the MP-2015 mortality improvement scale to the above described tables.

CITY OF RICHMOND HEIGHTS, MISSOURI OTHER SUPPLEMENTAL INFORMATION

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trusts of major capital projects) that are legally restricted to expenditures for specific purposes.

Sewer Lateral Fund -- This fund is used to account for special assessments to be utilized for maintenance of lateral sewer lines within the City.

Federal Forfeitures Fund -- This fund is used to account for monies received or other assets forfeited to the City as a result of judgments in certain court cases.

Court Costs - Training Fund -- This fund is used to account for monies received from fees charged on tickets issued to be used for police officers and municipal court judge and staff education and training.

Biometric Inmate Security Fund -- This fund is used to account for monies received from fees charged on tickets issued to be utilized to develop and maintain biometric verification systems which ensure that inmates can be properly identified and tracked within the local jail system.
